PROFESSIONAL SUMMARY

- Final-year M.Sc. Software Systems (5-Year Integrated) student at KG College of Arts and Science with 1.5+ years of hands-on experience at KG Genius Labs. Proficient in building scalable, production-grade applications using React, React Native, Node.js, and modern web technologies. Experienced in developing end-to-end solutions including AI-powered platforms, enterprise systems, and e-commerce applications. Strong foundation in Data Structures and Algorithms, problem-solving, and software engineering principles, demonstrated through hackathons and real-world product development.

EDUCATION

- KG College of Arts and Science** Coimbatore, India
M.Sc. Software Systems (5-Year Integrated Course) August 2022 - May 2027
- Sri K.Rangasamy Naidu Higher Secondary School** Coimbatore, India
Class XII - PCM with Computer Science (73.5%) 2021 - 2022

SKILLS SUMMARY

- Programming Languages:** JavaScript (ES6+), Python, Java, C++, PHP, SQL
- Frontend:** React.js, React Native, Tailwind CSS, HTML5, CSS3
- Backend:** Node.js, Express.js, Django, Flask
- Databases:** MySQL, PostgreSQL, MongoDB
- Tools & Platforms:** Git, Docker, VS Code, Linux, AWS, Postman
- Languages:** English (Speak & Write), Tamil (Speak & Write), Hindi (Write)
- Soft Skills:** Leadership, Teamwork, Problem Solving, Time Management, Client Communication

EXPERIENCE

- KG Genius Labs (KGiSL)** Coimbatore, India
Full Stack Developer Intern November 2024 - May 2026
 - Scalable Application Development:** Engineered and optimized scalable full-stack web and mobile applications in production, focusing on performance, modular architecture, and maintainability.
 - System Design & API Engineering:** Designed and implemented RESTful APIs and backend services, handling data modeling, authentication, and seamless integration across distributed systems.
 - Ownership & Execution:** Owned end-to-end feature delivery from requirement analysis to deployment, collaborating with stakeholders and consistently delivering high-quality solutions under tight deadlines.

PROJECTS

- Oviya MedSafe - Portfolio Website (KG Genius Labs):** Full-stack website with dynamic content management and responsive UI for a global pharmacovigilance firm. Tech: React.js, Node.js, Express.js, MySQL
(Live: www.oviyamedsafe.com) Dec 2024 – Jan 2025
- Student GIG Portal (KG Genius Labs):** AI-driven platform for skill-based gig matching using adaptive assessment and recommendation engine. Tech: React.js, Node.js, Express.js, MySQL
(Live: <https://gig.kggeniuslabs.com/>) Apr 2025 – Aug 2025
- Suyambu Oils - E-commerce Platform (Freelance):** Full-featured e-commerce website with cart, checkout, payment gateway, and admin dashboard. Tech: React.js, Node.js, Express.js, MySQL
(Live: <https://suyambu oils.com/>) Sep 2025 – Nov 2025
- Sathya Coatings - Enterprise Resource Management System (KG Genius Labs):** Web + mobile solution for construction project, labour, finance, and material tracking. Tech: React.js, React Native, Node.js, Express.js, MySQL
(Live: <https://scpl.kggeniuslabs.com/>) Aug 2025 – Mar 2026
- ICCL Certificate Automation System (Freelance):** Automated Excel data processing and PDF certificate generation system, reducing manual effort by 95%. Tech: React.js, Node.js, Express.js, MySQL
(Live: <http://103.118.158.188/>) Dec 2025 – Feb 2026

ACHIEVEMENTS

- DeepRacer 3.0 League - Top 50** (August 2024) Ranked in the **Top 50** nationally out of 500+ teams and awarded **\$99 Amazon Gift Card** for excellence in Reinforcement Learning and autonomous systems.
- Runner's Up - SRCAS Hackathon 2.0** (December 2025) Secured **2nd place** by developing **“WeRespond”**, an AI-powered emergency response platform using React Native and Node.js.
- Winner - Hackmarathon 2k26** (February 2026) Won **1st place** in Smart Healthcare Solutions track by building **“weDonate”** - a real-time blood donation coordination platform.

COURSEWORK

- Operating Systems Fundamentals:** NPTEL (IIT Kharagpur) - Mastered process management, memory management, file systems, deadlock handling, and synchronization mechanisms.
- Full Stack Web Development (MERN Stack):** GUVI, Coursera (Meta & IBM), Udemy & Great Learning - Built end-to-end applications using React.js, Node.js, Express.js, MongoDB focusing on responsive UI, REST APIs, and deployment.
